

HORIZON 2020

LE PROGRAMME DE RECHERCHE ET
D'INNOVATION DE L'UNION EUROPÉENNE

“The bitter-sweet triangle: collaboration with the Ministry”

Martine Roussel,
Secretary of state of Higher Education and
Research

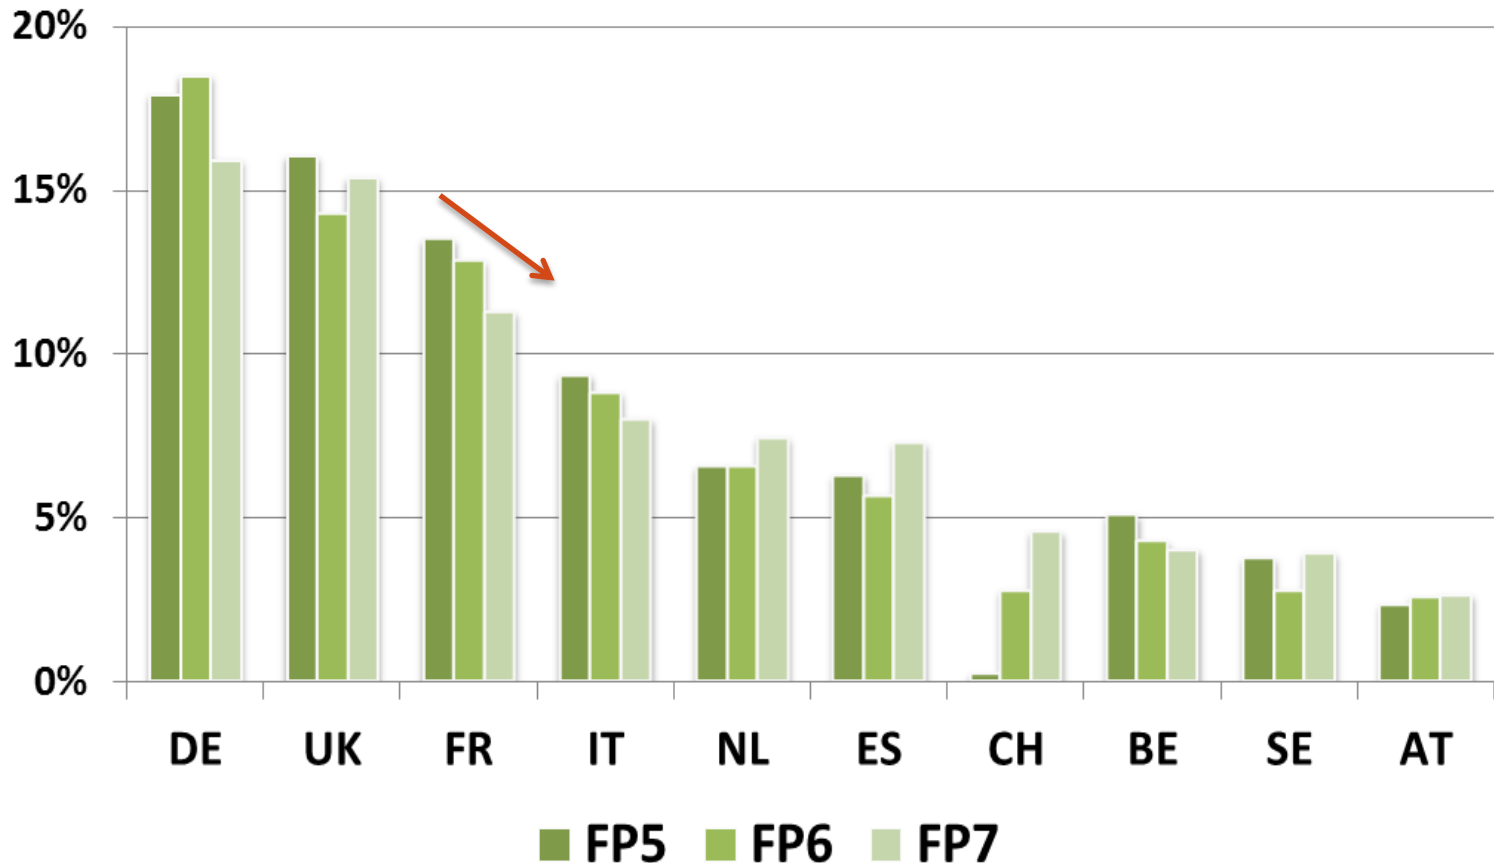

**9th UNICA EU Research Liaison Officers meeting:
Clearing the Horizon**

Université Pierre & Marie Curie, 20-21 November 2014

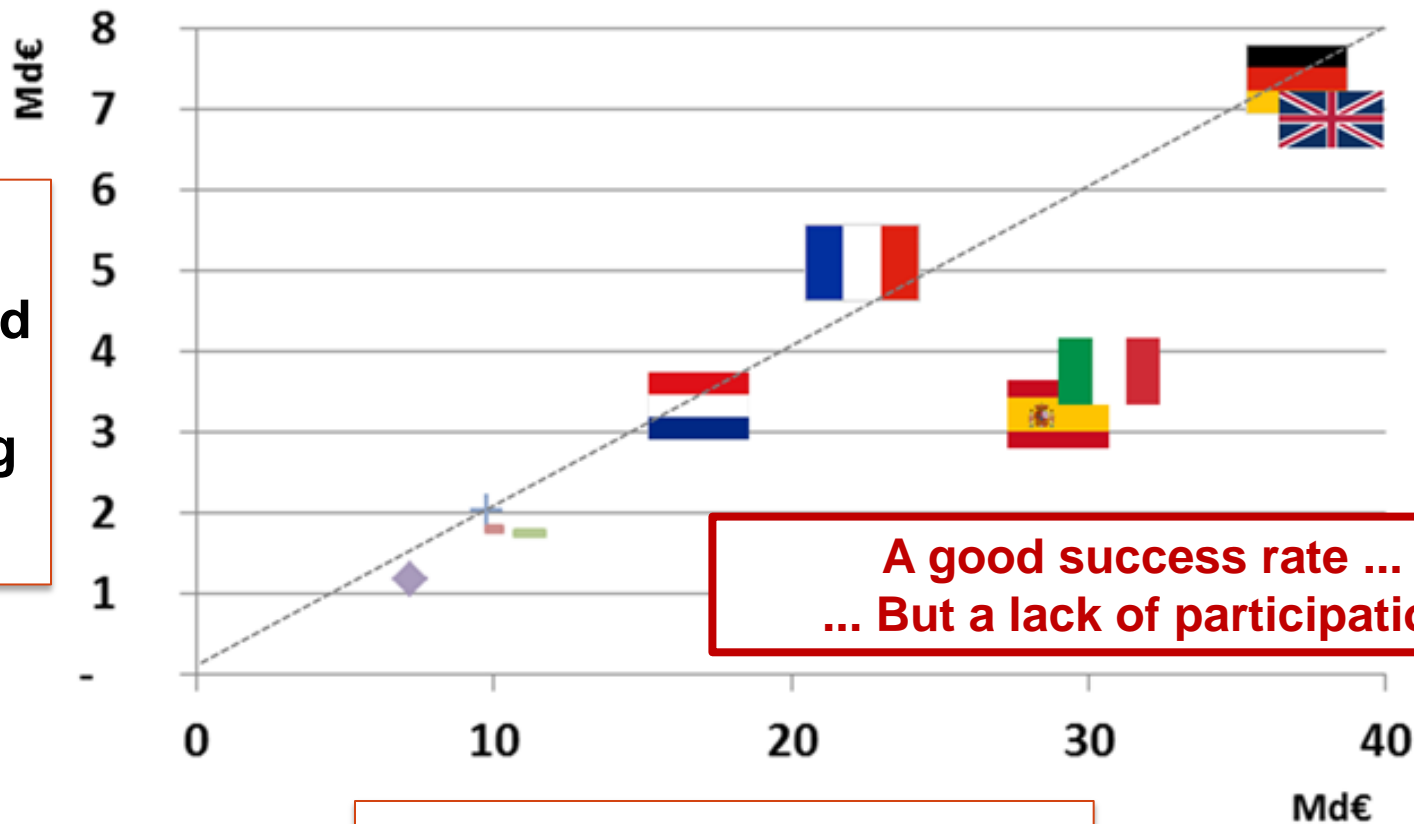

French National Support for Applicants

FP7 / FP6 : significant decrease of French participation

French participation to FP7

Retained
for
funding

A good success rate ...
... But a lack of participation

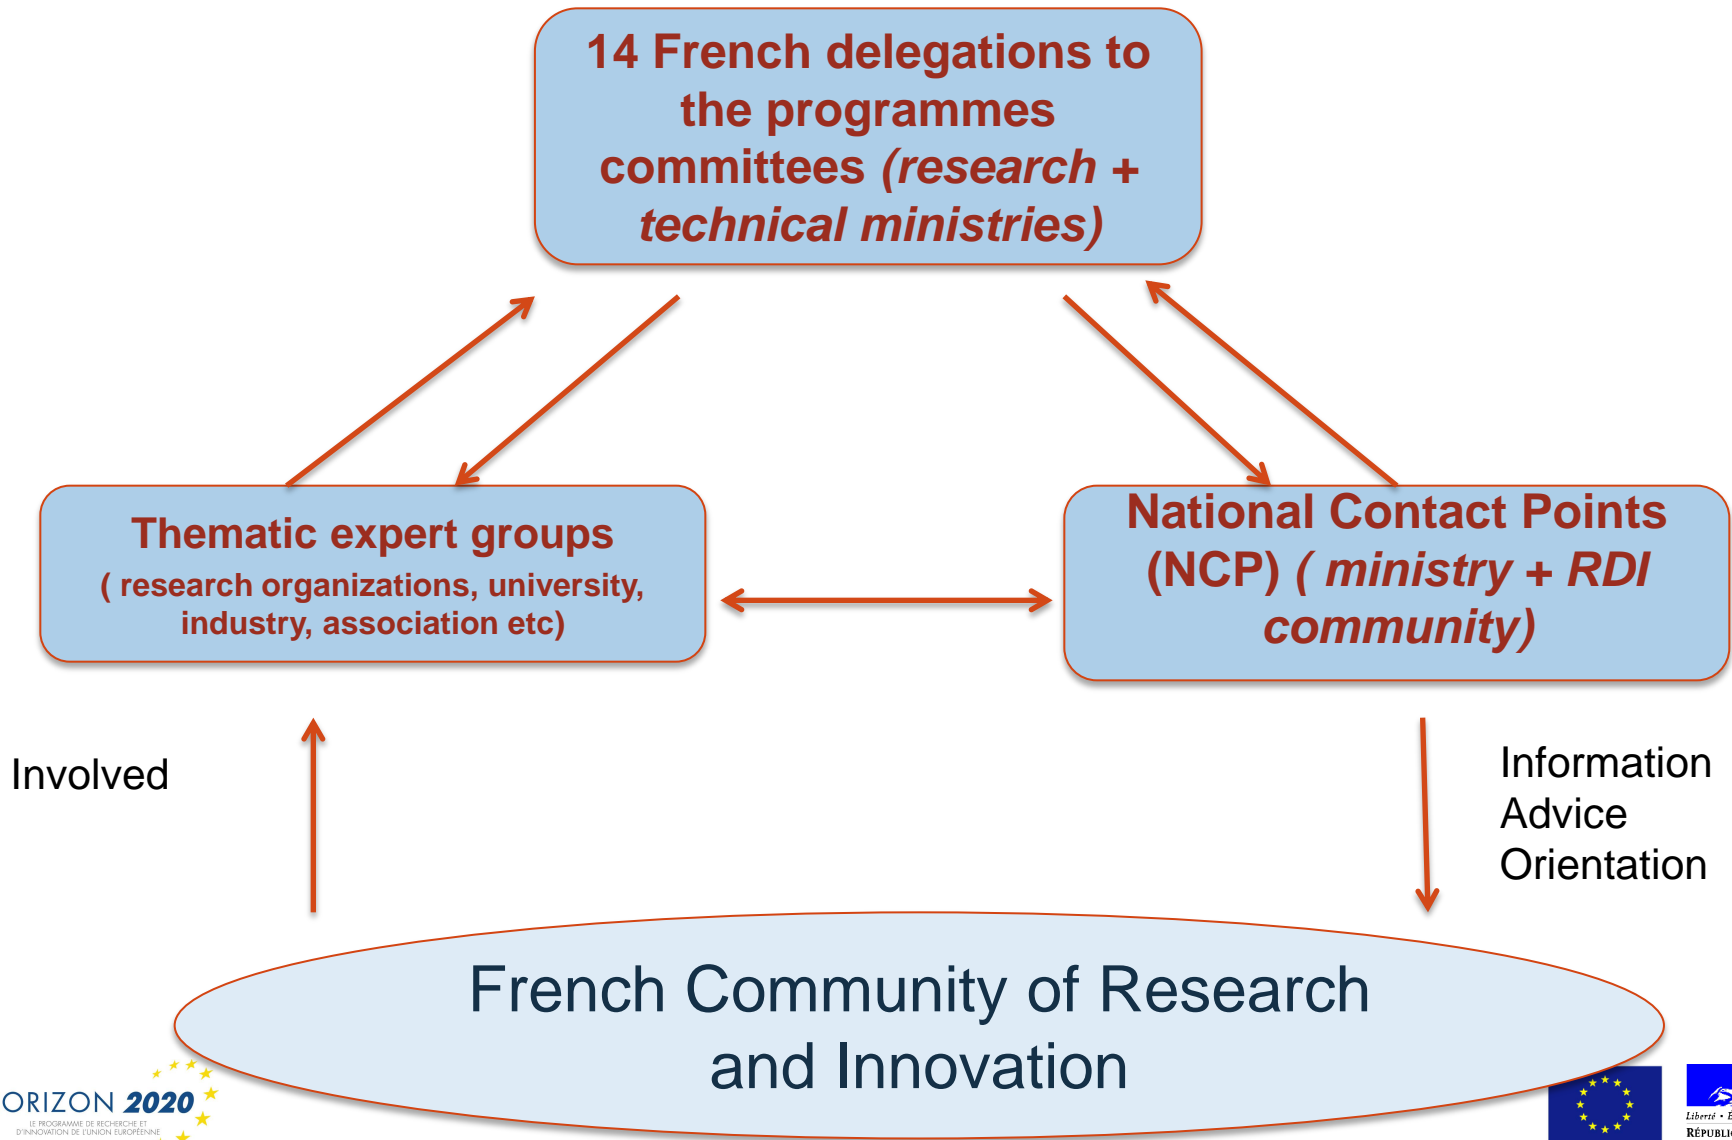

Requested Eu contribution

Increasing French successes in EU R&D fundings – France Europe 2020

A national strategy to « reverse the trend » and increase French participation in HORIZON 2020

- **Coordinating national and European programming** to rationalize research, development and innovation funding supply (to the French national RDI community)
- **Developping French RDI community's influence** in the European Research Area's decision making processes (position papers ; participation to expert advisory groups; evaluation panels ; Representation of French R&D' interests in Brussels ...)
- **Promoting incentives** to encourage French researchers to coordinate and participate in European projects (through the contractual relationship between the ministry and its main research organizations) .
- **Strengthening** the French national support system and coordinating its action plan with multipliers acting at regional level (close to labs and SMEs)

French national Support System

French national Support System

French Delegates to Programme Committees

- Opinion of the program committee is necessary to:
- The adoption of work programme
- The selection of projects after the contract negotiation phase

Thematic expert groups (GTN)

- Each delegate builds up an advisory group known as GTN. GTNs are made of research stakeholders (public or private). Their purpose is to help national delegates to prepare the official position they will defend at the programme committee meetings.
- They suggest topics to be included in the annual work programmes
- Together with NCPs, they analyse results of calls for proposals, strengths and weaknesses of French participation

National Contact Points (NCP)

- Once calls for proposals are published, the NCP network is there to help potential proposers in France.
- NCP provide information on HORIZON 2020 funding opportunities and promote French participation to the programme
- Provide advice and training to potential future applicants (for instance on administrative procedures and legal issues)

HORIZON 2020 – The new French NCP

Professionalized NCPs :

- the role and missions of new NCPs have been formalized by national specifications and a mission statement.
- Action of our NCPs are enhanced by the establishment of a shared set of tools.

Highly visible at national and European level

www.horizon 2020.gouv.fr, intensive promotion campaign

Coordinated with actors at regional level

- All NCPs will establish mutually supporting relationships with support services acting at regional and local level.

+ **Ministry of Higher education and Research** involved in every NCP consortia (through their delegates)

French NCP – Who are they?

French NCP are **consortia**

A pilot (coordinator): MESR/ Alliance / University President's Conference , CNRS, Agency.

A co-pilot : MESR (when the Ministry does not coordinate the consortium)

And 4/5 partners : alliances, research organization, university, Public Investment Bank (BPI) etc

HORIZON 2020 – The new French NCP

National NCP Coordinator (MESR)

Legal and Financial aspects (MESR)

SMEs* (Public Investment Bank (BPI)

Access to Finance (Public Investment Bank (BPI)

European Research Council (CNRS)

Future and Emerging Technologies (ANR)

Marie Curie actions on skills, training and career development (**University President conference**)

European research infrastructures (MESR)

Information and Communication Technologies (ICT)
ALLISTENE)

Nanotechnologies, advanced materials and advanced manufacturing and processing (ANCRE/MESR)
Space (CNES)

Health, demographic change and wellbeing (AVIESAN)

Food security, sustainable agriculture, marine and maritime research and the bio-economy'; & 'Biotechnology' (ALLENNVI)

Secure, clean and efficient energy (ANCRE)

Smart, green and integrated transport (ANCRE)

Climate action, resource efficiency and raw materials (ALLENNVI)

Inclusive, innovative and secure societies; (ATHENA)

Security (CEA)

Euratom (CEA)

Science with and for the Society

Widening Participation

Joint Research Centre (MESR)
