UNIVERSIDADE
DE LISBOA

11:45-12:15 **Discussion panel**

12:15-13:00 Indoor Campus Visit

13:00-14:15 Lunch
Refectory One, University of Lisbon

14:15-15:45 **Informal Education as Sustainability Bridge between Cities and Universities**

- Presentation by Dr. Janna PIETIKÄINEN, University lecturer in Environmental Studies, Helsinki University Centre for Environment

Dr. Pietikäinen will present the project of a Students Environmental Handbook. The handbook is web-based and it communicates with the students both presenting the environmental sustainability work conducted at the University and encouraging students to act in a sustainable way in their everyday student life. This Environmental Guide book is a joint project of the University of Helsinki, the City of Helsinki and the Helsinki Region Environmental Services Authority.

- Presentation by the RootAbility Group

RootAbility developed as a spin-off organization out of Maastricht University Green Office, the award-winning, and student-run sustainability department of Maastricht University. Four of the founding members of the Green Office created and developed the idea of rootAbility, fueled by the vision to export the Green Office concept to other universities in order to promote the sustainability agenda and boost student empowerment.

15:45-16:00 Coffee break

16:00-17:30 **World Café: How Can Cities and Universities Work Together?**
