UNICA EduLAB 2017:
Innovation in Teaching and Employability
30 november – 1 december 2017

UNIL | Université de Lausanne

EDULAB 2017

- Which competences could be added to learning outcomes to increase students' employability?
- Which content and strategies could be added in the course?
- Which actors – internal or external – could be involved to support and what would be their contribution?
- Which key features could be included for the suggested strategies to contribute to students' employability?
