

UNICA EQUALITY AND DIVERSITY SEMINAR

What factors interact with ethnicity to affect participation at university? Why in some disciplines are minority ethnic students less likely to achieve a high class of degree? Why do they often do worse in the transition to the labour markets? Why are women still under represented in Science, Engineering and Technology? How accessible are universities to disabled students? What should universities be doing to address these and other equality issues?

The European Higher Education Equality and Diversity Network* cordially invites you to their first seminar
