HOME

The Euro-Mediterranean area has a population with a need for training, education and employment. In this context, international learning mobility can fulfill the aspiration of people on both sides of the Mediterranean Sea.

The **Euro-Med Mobilities** platform, provides an answer for everyone, whether individuals or organisations, who wish to benefit from a period of mobility or develop a cooperation in the Euro-Mediterranean area.

It is designed to help everyone seize the various opportunities in this geographical area.

Euro-Med Mobilities provides:

- information regarding cooperation projects and mobility schemes
- a watch on the latest policies for youth and education
- counselling for mobility in this area
- guidance towards the various funding offers available

International mobility experience for Euro-Mediterranean people and cooperation, strongly enhance employability and facilitate the sharing of joint, democratic and civic values enabling the construction of a Euro-Mediterranean area that is open to the world.

Euro-Med Mobilities relies on its partners' expertise to propose a unique offer of cooperation and mobility in the area of education, training and youth.

Open call for ten fellowships for specialists in advanced research in biomedical imaging - Community of Madrid - Spain

The Regional Ministry for Education of Comunidad de Madrid offers **10 fellowships** for specialists on advanced research in biomedical imaging. This call is part of M + VISION, a program in collaboration of the Massachusetts Institute of Technology (MIT) and co-funded by the Seventh Framework Programme of the European Union. Initially, the fellowship lasts for 12 months that can be prolonged with a 24-month contract, provided that there is a host organisation (university, research centre, hospital or firm) based in Madrid that hires the researchers during the second and third year. Host organizations will have a co-financing of up to 57% for hiring the researchers. The economic support consists of:
