Gallery walk: findings and suggestions

Claire & Raimonda

Curriculum development

Achievements:

ECTS makes it easier to transfer credits

Challenges|:

1. Breaking traditions and breaking the walls between faculties
2. Introduce flexibility without loosing the depth of curricula
3. Emphasis on Joint Degrees involving different countries & legal framework
4. Mobility at PhD level
5. More innovative curricula based TLA approach
6. Interdisciplinarity
7. Lack of tools for measuring internships's outcomes

Suggestions:

More focus on interdisciplinary curricula

Mobility

Achievements:
 Easier and higher numbers of mobile students and teachers

Challenges:
1. Languages
2. Mobility of administrative staff
3. Enhancement of virtual mobility
4. Recognition of study periods
5. Planing studies for mobility period
6. Not enough courses in English
7. Misbalanced mobility (in & out)
8. Living costs abroad (differences between countries)
9. Assessment of results (outcomes) of mobility

Suggestions:

To use mobility as international cultural experience

Quality assurance

Achievements:
1. Quality more discussed
2. Student questionnaires
3. QA related to internationalisation

Challenges:
1. What is quality?
2. How to measure quality?
3. Overload & numbers of students
4. How to create quality culture at your institution?
5. How to involve teachers in peer-review?
6. How to motivate students to answer questions?
7. Tools for assessing internal quality

Suggestions:
Inservice training to enhanced quality

LLL

Challenges:
1. Linking vocational training and HE
2. Employability
3. How to get support from employers?

**Achievements:**
1. More awareness of the importance of LLL
2. More flexibility
3. QFs facilitate LLL. - more flexibility in learning paths (horizontally & vertically)
4. More institutional support
5. Different learning strategies and technologies
6. Competence based learning

Topics suggested for the EduLab

1. Methods of financing to encourage quality
2. Future role of education of social sciences and humanities
3. Usefulness of Erasmus +
4. How to implement new ideas of innovative methods of education
5. Pedagogical development
6. LO/ assessment methods
7. Interdisciplinarity / Joint degrees
8. Recognition non or informal learning
9. Research and teaching - balance and interaction
10. HE influence on previous preparation of students
11. Cross border education
12. Universities and governments
13. HE - more effective vs bureaucratic

Thank you for your:

Efforts
Networking
and
Attention!
