**UGAF - University and City**

1. UGAF as facilitator in relationships between universities and city

2. Creation of a portfolio on type of relationships – guidelines

3. UGAF as an active voice – support

4. Common event between UGAF universities and cities (model 'Night of the Museums')

5. Social and economical aspects of cities should not be left aside. Cities should be living laboratories (open the doors to the city). Ex. research projects on energy 'smart city research project'
