Letter of Interest

I am writing to express my strong interest in the position of the IRO Observer to the UNICA Steering Committee. Having been directly involved in coordinating and administrating a decent number of high-profile international academic projects at Tallinn University of Technology, I look for a serious as well as challenging opportunity to apply my professional skill in a multi-dimensional continent-wide international environment of a growing academic network. My university is a hi-tech champion, and our activities have helped me tremendously in the process of combining my teaching skill with plenty of knowledge on big international projects management, strategic communication, and regulatory information understanding. In Tallinn, robots, delivering groceries and post, cross intersections together with humans. I can assist the network in learning plenty from the Estonian experience for the benefit of UNICA. I am a multi-lingual professional, a capable multi-tasker, and an effective strategic communicator. Please find my current CV attached to this e-mail. In addition, please do not hesitate to contact me any time, should you have any questions or requests related to my documents.

I am looking forward to your feedback.

Yours sincerely,

Anna-Maria Nizovtseva
International Cooperation Coordinator
International Cooperation Division
