2nd joint UNICA-Coimbra Group workshop for doctoral candidates

Navigate your career!

Centre for Advanced Academic Studies of the University of Zagreb in Dubrovnik
15-18 October 2017

The 3 ½ day programme will include presentations from keynote speakers, training sessions aimed at improving specific competences, debates and space for self-assessment and reflection on **employability prospects** and on the soft, transversal skills needed to respond to a **global setting in constant change**.

The workshop will bring together **doctoral candidates** from universities across Europe in a highly **international and multicultural setting**, which will allow them to meet peers who may have had a very different experience. Participants will have the opportunity to step back and reflect, in a structured and guided manner, on the broad skills they have gained during their doctoral studies and that are key in the **ever-dynamic global employment market**.

Application deadline: 26 May 2017

Each University is invited to nominate one doctoral student to take part in the training. The following items should be provided:

- A **letter of endorsement**, signed by the Rector/President or Vice-Rector/Vice-President of the University. This letter should indicate the contact data of the nominated doctoral student (name, surname, e-mail, phone number);
- The candidate's **CV** and **statement of interest**

Participation fee:

The fee for the participation in the training is **€550** and includes: accommodation (4 nights) at the CAAS Residence, meals (breakfasts, coffee breaks, lunches, 2 dinners) and the participation in the social programme.

We strongly encourage member Universities to support the participation of their doctoral candidates in this joint Coimbra Group-UNICA initiative and to cover their travel and participation expenses.
