MISSION IMPOSSIBLE?

- It's summer ...
- The budget is tight
- Limited lecturer options to go with
- Must be in English
- Not much room for improvising
- Did I mention it's summer...

POSSIBLE MOTIVATION

- Bonus/ additional compensation
- Mission to educate future talents
- Possibility to add something extra to CV and acquire new opportunities
- Chance to meet new people and to be in the middle of happenings
- Don't have anything better to do
- Get in shape before the semester begins
- Invite/ involve participants of the summer school to their projects

What is your experience?
