

What we do

Protect human and animal health

Facilitate development and access to medicines

Evaluate applications for marketing authorisation

Monitor the safety of medicines across their life cycle

Provide reliable information on human and veterinary medicines in lay language

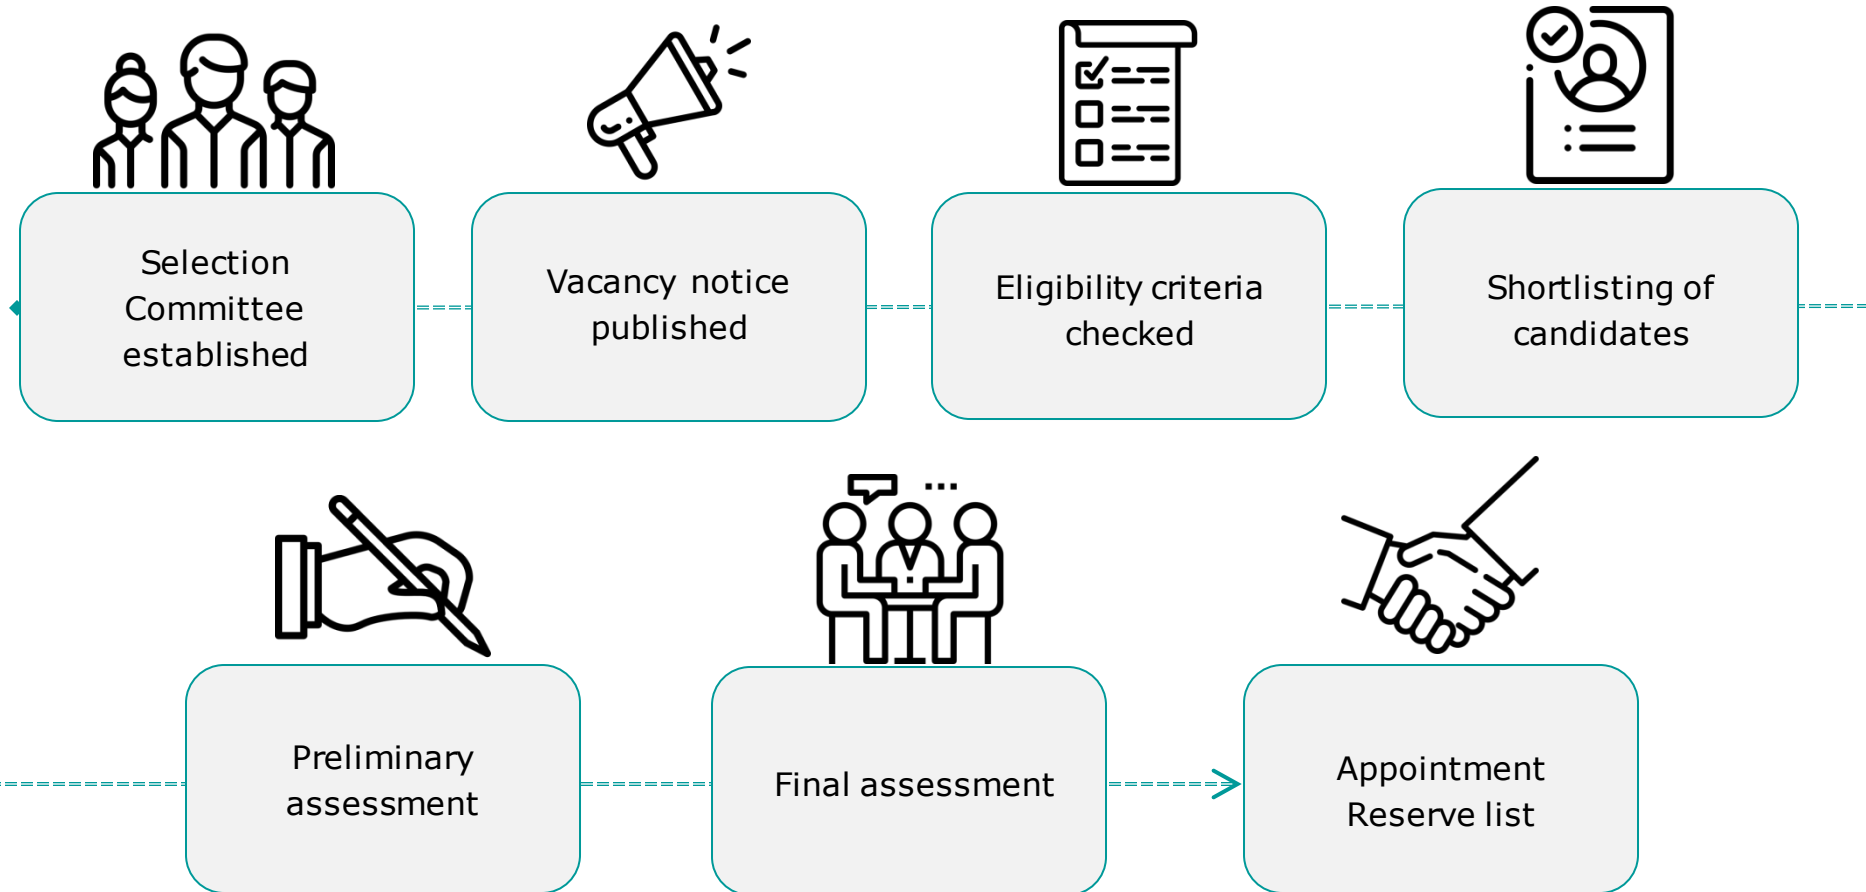

As a scientific officer at EMA, you will typically be responsible for activities related to human or veterinary medicines in areas such as procedure and scientific management, scientific committee support, pharmacovigilance, and inspections and quality.

Life at EMA

- Diverse international working environment
- High level of professionalism
- Stimulating work on a wide range of scientific and regulatory roles
- High public health impact
