CENTRAL TERMS FOCUSED ON:

- **Hybrid learning** is defined as the combination of synchronous and asynchronous learning.

- **Online learning tools** from various platforms, but to ensure the quality of online modules and classes.

- **Mental wellbeing** is deemed just as important as physical health; everyone must take care of themselves.

HYBRID LEARNING

- *It is recommended that the higher education institution should guide the lecturer through it, providing necessary skills, training and tools to offer a proper inclusive hybrid method of studying to the students.*

ONLINE LEARNING TOOLS

- *Increase awareness about the different options of tools and encourage universities to further train their staff with at least the basic skills of the most common or useful tools.*

MENTAL WELLBEING

- *The students of UNICA stress the importance of enhancing the mental health support system of the higher education institutions and stress the importance of psychological consultations and support.*
