

11th UNICA SCHOLARLY COMMUNICATION SEMINAR

Open Science and Academic Libraries: Organizational Challenges in an Evolving Research Landscape

Hosted by the University of Ljubljana | 22-24 April 2024

Universities have to address Horizon Europe Open Science policy, legislation updates and policies in the EU Member States, transformative agreements, diamond open access publishing, infrastructures, and other aspects of Open Science. Together with their libraries they are facing organizational challenges that increasingly involve international environments and cooperation.

The 11th UNICA Scholarly Communication Seminar will focus on sharing Open Science good practices related to the management of academic libraries, the role of European Universities alliances and reform of research assessment:

- *How can universities and academic libraries best manage Open Science services to support their communities?*
- *What are the most significant Open Science initiatives developed within the European Universities alliances in which UNICA member universities are involved?*
- *How will COARA and the new research assessment model in the EU help drive Open Science?*

Target audience: Directors of Libraries, Heads of Library Research Support, Academic Heads of Research and of Libraries, Vice-Rectors for Research, Directors of the University Press, Librarians.

Information

- **Participation** in the event is open and free of charge (no registration fee applies).
