## STRATEGIES USED TO IDENTIFY SUITABLE INTERNATIONAL PARTNERS THAT ALIGN WITH OUR INSTITUTION'S GOALS AND VALUES

---

- The Vice Dean's team of International Relations decide the guidelines about this matter.
- Attendance to International Fairs to meet potential Partners: NAFSA, EAIE, etc.
- Listen to the students' demands: Top Universities, living costs, English language, ...
- Guidance of Researchers, Teaching Staff and International Mobility Coordinators.

# PARTNERSHIPS AND COLLABORATIONS IN REGIONS WITH COMPLEX SOCIOPOLITICAL DYNAMICS

---

- We apply for Erasmus KA171 project (former KA107) in countries with varying sociopolitical contexts (e.g. Africa). We have a close relationship with partners to see what they require. We try to find the suitable group of destination for these kind of grants: PhD students, Teaching staff, researchers, etc.

## COMPREHENSIVE APPROACHES WE HAVE ADOPTED TO INFUSE INTERNATIONAL PERSPECTIVES INTO CURRICULA, RESEARCH, AND CAMPUS CULTURE:

---

- All the activities in our European University Alliance for Global Health (EUGLOH): BIPs, Staff Training Courses, etc
- Creation of the International Lounge: a space to welcome international students, teachers and administrative staff, as well as giving information to our students and staff.
- Increasing of English-taught subjects in our University: Language training of our Staff.
- Program to increase the internationalization of our University. 7000 € for projects in cooperation with other partner Universities.
- Going Abroad Fair at the Faculty of Economics, B.A. and Tourism

# LEGAL COMPLEXITIES WHEN WORKING WITH PARTNERS FROM DIFFERENT JURISDICTIONS:

---

- 2 Spanish Laws regarding Data Protection were approved in 2016. We had to renew and re-sign non Erasmus bilateral agreements including these changes in this topic. Some universities refused to sign it , some others included their own terms. We have a legal advice service which had to study all these cases and we had to negotiate all these renewals. It affected mostly to universities in South America and Asia.

# EXAMPLES OF ALUMNI INITIATIVES AIMED TO EXPAND OUR GLOBAL NETWORK:

# INTERNATIONAL AMBASSADORS ALUMNI-UAH:

It just began in the 2023/24 academic course.

Former UAH students who made international mobility and are actually working abroad.

## **AIMS:**

Global network to share ideas, resources and collaboration.

Organize meetings, conferences, cultural events, etc.

UAH promotion in their residence country.

Personal and professional development for them.
